

VisionCare Devices, Inc.

Environmental Policy

VisionCare Devices employees and management strive to reduce the impact to the environment on a daily basis. In general, VisionCare Devices:

Verifies clients' environmental requirements to establish policies for compliance

Institutes continuing improvements to our environmental performance

Supplies safe manufacturing processes and a clean and positive work environment

Insures our environmental goals are consistent, communicated and conforming

Operates efficiently by recycling, proper disposal, pollution prevention and minimizing energy use

Nurtures an injury-free work environment, that promotes health, productivity and quality

Communicates the importance of meeting customers' requirements

Adheres to the spirit of this policy as a driving force toward a better workplace and a better product

Relates our accountability for these environmental, health and safety standards publicly

Encourages full participation in compliance with this policy
